## FOR IMMEDIATE RELEASE

### Charter Success Partners Launches New Data Software for School Administrators

**DURHAM, NC, July 3, 2023** – Charter Success Partners (CSP), a leading provider of educational consulting services in the Southern US, today announced the launch of Insights by CSP (Insights), a new data software designed to help school administrators and other school leaders make more informed decisions about their schools.

The logo for 'insights' features a green leaf icon above the letter 'i'. The word 'insights' is written in a blue, lowercase, sans-serif font.

by **CSP**

Insights provides a single platform for school leaders to access and analyze their school's financial, academic, and demographic data. The software also tracks NC county billing payments and produces accurate invoices. This

comprehensive data platform allows school leaders to identify areas where their schools are excelling and areas where they can improve. The system uses data exports from standard systems such as PowerSchool, LINQ, ProLiant, IXL, and more, to provide daily analytics to school leaders.

“We know that data is essential for school leaders to make sound decisions about their schools,” said Cory Draughon, CEO of CSP. “Insights provides a user-friendly platform that makes it easy for school leaders to access and analyze their data. This information can then be used to develop and implement strategies that will improve student achievement.”

Insights is available now to all public charter schools in North Carolina. You do not need to be a CSP service client to utilize the Insights platform. Anyone interested is encouraged to register for a free consultation on the [Insights by CSP webpage](#).

### About Charter Success Partners

Charter Success Partners (CSP) is a leading provider of educational consulting services. CSP helps schools improve student achievement by providing customized solutions that address the specific needs of each school. CSP's services include school improvement planning, data analysis, teacher training, and professional development. CSP is committed to helping all students succeed.
